MT. SALEM, LINCOLN COUNTY.

-(i. C. Lyon had a very fine cow killed by lightning on the morning of the 5th. -T. C. Jasper sold to Mrs. Jane Cloyd on the 4th a good huggy horse for \$150.

-Corn in this section is said not to be turning out so well as was expected a while back.

-There is some sickness in this section, mostly cholera morbus. Sam Moora is down very low with typhoid fever.

-Bob Smith and John Carroll have 12 acres of very fine tobacco in this section, two of which they challenge the county to beat. Some leaves measured 42 inches in length and 211 in breadth. If any other tobacco raiser in Lincoln can surpass this we would like to hear from him.

-O W. R. fle started to Kansas on the 5th. Mrs. T. C. Jasper has been on the sick list for the past week but is now getting better. Miss Naoml Jones is now on a visit to relatives in Jacksonville, Mn. John J. Estee, Thos. R. Estes, Eiljah Colline and Henry Austin started on the 10th for south western Kansas with their fami-

IN MEMORIAM.

Died, on Thursday, September 1, 1885, at 3 o'clock P. M., of brain fever, Lewis Jackson, youngest child of Mr. and Mrs. A. J. Hayden, aged six years and nine months. In the quiet and beautiful city of the dead-Huffalo Cemetery-is his new made grave. Yee, cruel death came into the happy home and took from its circle its brightest gem, "Little Jackie," as he was familiarly called. He was a child of budding promise and beauty, sweet and winning ways, and loved hy all who knew bim. Oa how he will be eadly missed in the home circle, where he was dearly loved and cheerished! No more will they see his form or face; no more will they hear his merry laugh; never again will they behold him in his accustomed place at the festive board, morn, noon and night No; he has gone from earth forever. The vacant chair is there, but Jackie has gone. upon the choic of memory. Though he has gone, yet will be live in their hearts forever, and many and sweet are the memo ries that ciuster around their darling boy. After a few more days they shall gather him back to their bosoms in that eternal land where the blighting dew of death never falle; where "adieus and farewelle are a sound unknown." The place [maile vacapt in those bereaved hearts can never he filled with another image. And many are the lears they've shed for him who now "sleeps the sleep that knows no waking." But, fond parents, why weep ye over the little casket of clay that so lately bore the preclous jewel as it lies cald and motionless in ite serene beauty? By sweet and so love ly is the pair face that It seems the hallowed spirit "hangs round it still." But ne. "The flesh alone that in the grave must rest; The appli-the life-the apirit, it is bicased -Supremely blessed, in house not made with hands.

Mansion of light, home of the angel bande." A brief conflict with disease transferred Jackie from the home circle which his presence ever gladdened, to the "beautiful land" leaving acting hearts to Himself, and our loss le his eternal gair; having to bear the cross. Thus was this buil of promise irans, i inted to the celestial garden to bloom and expand through ail eternity. Sweet, consoling thought to the bereaved parents, that on the golden shore they may again clasp their angel boy.

There in the land of the biest, Where the spirit of Jackie has flown, They may lay all thier sorrows to rest, And cialm bim torever their own. The beautiful City of Light, Gates of pearl and its crystal stream,

is their angel boy's home day and night, Where he's waiting and watching for them. A Friend, MAGUIK E.

BASE BALL.

THY OUR SPORTING EDITOR |

The most exciting game witnessed this reason was played on the 8th at the Montgomery grounds between the home team and the Danville hove. The home team was victorious. Hiner occupied the box for the visitors and was batted freely by the home team. In the second inning the home boys secured five hits off of him, one of which was a two bagger by Penny, which brought in two scores. Hume pitched for the home bys and as usual did excellent work.

A very marked improvement has taken place in the playing of the home team. Their base running is perfect, but they are lamentably deficient in throwing. This can be remedied by parctice and the management will see to It that It is done.

WOMAN'S FAITH IN MAN .- Men come home utterly discouraged; their best effores have failed; self esteem has sunk within them until hope is quite extinguished. What does a woman do under such circ imstances? Just what she ought to do, She revives his waning manhood by praise. She shows him every particle of her own loving recognition of all there is in him. MURPRY was hragging in Danville this week about how solid he was with Knott. Johnston and others, whom he character ized as the nicest fellow living. The mntual admiration seems to have been a society of recent growth, for on the 29th of June, 1883, Murphy published this editorily in his paper: "The Frankfort Yeoman, our ancient foeman, is nothing if not vituperative to Unton men, Northern men and all republicane. Il hae not drawn a loyal breath for twenty-two years. And as an organ it grinds out doleful dirges without the elightest regard for lie neighbor's feel inge!" In the came issue in response to an article in the Courier Journal Intimating that it was a condescension for Knott to meet Morrow in debate he aske: "Why is it a condescension for a man who, in violation of every principle of decency and honor, as a representative of the great American people, concealed testimony in order to destroy the character of one of our greatest public meu, to meet Col. Morrow, who is a gentlemen? Why is it a condeecension for a man who stole his nomination for governor to meet a gallant soldier, an able statesman and an honest mat?" Was Gov. Knott only returning good for evil when he telegraphed the Secretary of the Treasury: "My compliments, and please retain Capt. Murphy at Frankfort."

THE Yeoman is forced to admit that "every issue of Murphy's paper contained a hatch of stereotyped slanders against the democratic party, the Southern people, and in the late campaign especially, against the democratic candidate for President, but we doubt if it ever influenced a vote or accomplished anything more than a Federal appointment for its editor, Capt. D. A. Mur. phy." Grant that it didn't influence a vote. The will was there all the same and the fonl creature is a pretty specimen for the chairman of the Democratic State Central Committee to endorse, and plead for his retention in office. Col. Johnston should resign his office at once. A Judae Iscariotie not the proper individual to direct the af. give them two in the game. And it is well fairs of the democratic party in Kentucky.

THE Lexington Transcript contains this rank and treasonable utterance, and will thereby, no donht, incnr the lasting enmity of the Blackburn crowd: "Judge Durham is as much an honor to Kentucky as is Senator Blackburn, and is as highly esteemteemed as any Kentuckian. Indeed, if we were going to draw a parallel between Mesers. Durham and Blackhurn we should say that to Kentucky Judge Durham is the most valuable man of the two. We regret to fee any exhibition of hostility or do them no good in the eyes of Kentuckiane, and we trust if there is any ill feeling on the part of Senator Blackburn to Judge Durhem, he will have the good trate and consideration to conceal it."

He followed his man as he supposed for many miles and finally reached a shanty in Lee county, Va. They ent red and saw a negro sitting at a table with a pietol lying on it. Mr. Arnold advanced towards him and reached for the pistol, which the negro grabbed at the same time and was in the act of shooting Mr. A. in the head when Will Stringer, one of the pos e from Piteburg, shut him in the temple, killing him instantly. It then turned out that the negro was George Beatle and that he was the one for whom a reward of \$500 was offered for the murder of a white man in Georgia. The story is that he engaged in a game of cards with the man, who won over a hundred dollars from him, all he had, and that afterwards he induced the man to let him shave him, when he cut his head off, with the rezor as he lay back in the chair. Gaining possession of his money, he fled and was seen at Junction City, then at Altamont, where an attempt to arrest him in New York Monday at \$617 which le caused him to run off. There was no trial of S ringer and as the act was committed in another State it is not likely there will be.

There was no more promising young officor in her majesty's service than Cyrll Trezire. He was smart, clever, and ambitious -just the qualities best relculated to bring a soldler to the front if only he got his chance. But luck so far had been against Trezire, and hope deferred was rapidly making this spirited young fellow quite heartsick. He was beginning to think that he had better take up some other line of life, where his effort; would be more appreciated, before it was too late to climb the lalder. But just when he was nearest despair the clouds broke.

The occasion arose some half a-dezen years ago, just when an additional and irresistible motive incited him to get on. He had met his fate in the person of a certain Millicent Lane, the only child of an old lady who liked to be called Mrs. Coppinger-Lane—a composite name, manufactured, so to speak, by the now deceased Lane pere, who hoped thus to give social brilliaucy to a fortune rather recently acquired in bone-lust and artificial manuros.

Millicent Lane was very charming. pretty, pleasing girl, with a well-brei elr, thanks to her education at a first-rate school. Her mother, a worthy aud wellmeaning old soul, did not win on one so quickly; she was too anxious to let everyone know of her country place, of her house in Birkeley square, of her carriages and horses, and of the fabulous prices she paid her own and Millicent's gowns. Even this estentation might have been forgiven had it not gone hand in hand with a tendency to meanness. Mrs. Coppinger-Lane was always determined to have her money's worth, her "penuy worth," as she called it, and in her opinion Cyvil Trezire was not a good "penny worth" at all. They had met abroad, where she 'as glad enough to make use of him, for it was part of her economies to travel without a courier, and utilize any fool who offered blusself instead. Back in London it was altogether another affair. Mrs. Lune had made inculries, and had come to the conclusion that Mr. Trezire was by no menns au eligible parti. He was a gentieman, an officer, and all that; but he was poor, and without particular houar in his profession. No; he was not Mrs. Lane's money's worth, nnl, hoping to nlp all foolishness in the bud, she forbade him the house.

Finding Millicent still hankered after the soldier, Mrs. Lane decided to break up her house in Berkeley square and winter abroad. The news that the Lanes were just starting, vla Brindisi, for Egypt, preyed greatly

on Trezlre's spirits. "You look very glum. What is the matter with you?" asked a soldier friend, who was just then private secretary to a great

man at the war office, deep in all the secrets of government policy. "I want to go to Ezypt for very particular

leasons at once. "Do you? By Jove! I can help you, think-part of the way, at any rate. remain at the club for the next half hour. I

dare say I shall have something to tell you by then to your advantage, as they say in the advertisements." Within the half hour Trezire received a "Come over at once," It ran; "the chlef

wants to see you. Don't lose a moment."
"Co'. Minrsh telis me that you are prepared to undertake a long journey," said the great man when Trez're was ushered before him. "When can you start?"

"Now; If you only give me time to get a faw things from my lodgings in Picca lilly," was the prompt reply.

"It is only fair to tell you exactly what we want you to do. We wish you to take charge of a rather bulky parcel as far as the British fleet. All your expenses shall le pail hand-omely, but we cannot acknowledge you as our agent." "A secret mission, in fact?"

"Exceedingly secret. I will be plain with you. We have heard from the fleet that they are short of dynamite, and it may be necessary to force the passage of the Dardanelies. There is no time, you understand, to send out a parcel by sea, as the stull must reach the admiral within the uext week, and, therefore, it must be overland. What do vou sav?"

I should have to take it as part of my baggage, I presume, in an ordinary portmanteau, amongst my shirts." "Precisely. As private baggage, entirely

on your own account. You quite understandf

'I think so. If an explesion occurred and I survived, which is hardly probable, I should be banged; if only discovered with tec dynamite, I should go to some foreign juli. I coo the dangers, sir, and am quite prepared to face them but on one conditlou-that I am to have a staff appointment in the very next campnign."

The general readily complied with the condition, and that night Trez.re was seated in the mail train for Paris, His laggage, amongst it being the partmenteau containing the dangeren explesive, was registered through to Turin. One part only of his compromising rargo he retained in his possession. These were the detonators-delicate pieces of machinery, which, wrapped up in cotton wool, were cur fully packed in the center of his dressing-bag, and this hag he kept in his own innuds and under his own eye.

Arriving in Paris soon after dayitzht, he transferred himself from the Gare du Nord to the Garo du Lyon. Ho was in excellent time for the through mail train, and he met at the station, quite by accident, of course, in official from the British embassy, who helped him-morely out of personal frientship to secure a compartment to himself. Trezire first made bluself comfortable, and then kept a sharp lookout for the Lanes.

woom he knew were to go on by that train They were late; Mrs. Lane had been haggling over her bill at the hotel, and it was not easy for them to find places in the uirendy crowded train. Trezire nt once

the rest of tuo day, little dreaming what it contained. On reaching Turin in the early morning,

Trez.re made the bag his first care, and then proceeded to clear his heavy baggage, and that of the ladles, through the Indian custom benss.

The boxes were laid out upon the counter -a goodly row. Mrs. Lane had half-adozen dress baskets, at least; Millicent as many more; and they quite swanmed the two molest fortmanteaus owned by Tre wire. of the dress baskets for search. "No, no; not that one, please, I beg of you. Mr. Trezire, don't let them open that," hastily interposed Mrs. Lane.

"Be quick!" cried the official, waxing flerce. "Your keys, or your baggage shall be selzed. Take care!" This would not have suited Trezlre at all.

"My dear tundain, you really must give in," said the perplexed soldier. "Why do you object to their opening that particular box? I suppose there is something liable to duty. What is it? Cigars?'
"Mr. Trezire, how can you? I've lost my

"We have our duty to perform, signor; you must, therefore, pardon us," replied the official, civily but sternly. "Your keys, or the boxes must be broken open." Trezire produced his bunch, and gave

blmself up for lost. But belp came when least expected. A contleman suddenly hit him familiarly on the back, crying: "My dear Trezire! I'm delighted to see you. What is wrong!" Then, before our friend could reply, the newcomer had exchauged a rapid colloquy

in Italian with the custom house officer. "Altro!" said that official. "If they are friends of yours, Signor Consul, of course, they shall pass," At first Trezire was at a loss to understand how he escaped. This friendly intervention came from an absolute stranger, not withstanding the claims advanced to acqualntance. But the address, "Signor Con-

sul," gave Trezire the key to the mystery.

The British government would not besitate to disnyow him, if his enterprise falled, but they were clearly watching him at every step, and were ready to help him unoficially, when they could. "It was most providential, meetling your friend," said Mrs. Lane, with a sigh of re-

llef, as they were once more whirled along in the train for Milan and Venice. "Yes," replied Trezire, off-hand. "He is a good fellow, the consul, always rendy to

help a chum."
"No doubt," said Mrs. Lane, who was becoming more and more impressed with the advantages of traveling with so important a personage as Mr. Trezire. "It is indeel, fortunate that we met you. But for you-" You would probably have been sent to goal. Well, there are no more custom-

houses till you get to Alexandria." "And if there were," said Millicent, grate fully, "we know you would get us through them, or any other trouble."

Trezire answered gaily, for his heart was light and almost free from care. The worst part of his journey was over. They would be at Venice before nightfall, and he hoped to go straight on the P. &. O. Steamer. was to start the same evening for Brindlsi, where the admiral's dispatch-boat was to meet bim.

The train reached Venice in good time, leaving them a couple of hours to spare for transferring theuselves and their baggage, by a gondola, to the big steamer in the la-

All well have gone well, but for this baggaga. The bulk of it was quickly colected, but one fatal bonnet-box of Mrs. Lane's had gone astray.

"It can be sent to you, Mrs. Lano," sail Trezire, rather crossly, after search had been made high and low, but in vain, for he saw to his disgust that the time was slipping His journey had been calculated exactly. If he lost the steamer at Venice the whole of his plans would be upset, and there was no knowing how he would be able to get on.

"Send them to me? No, no, I will never trust them to do that." "Perhaps it will be best for me to go ou ahead. I dare say I can persuade the cap-

tain of the steamer to walt half an hour." "What! Desert us in this difficulty! Oh. Mr. Trezire, it would be mean," said Milli-

After this Trez're had no alternative but to stay. And everything happened as he had feared: for, although he took a gondola, with two strong rowers, they could not do the distance between the station and

Danielli's in time to catch the mall. Trezire was in despair. The ladies, too, were rather unhappy. Millicent, because she saw her lover was so put out, while Mrs. Lane was thinking regretfully of certain rooms at Cairo, and of the week's rent size ould have to pay for nothing. However, they all went to Danlelli's for the night, where Treslre left them to put in practice a fres i combination he had arranged, with the hope of overcoming his nupleasant mis-

chance. He had accertained at the botel that a termar, one of the Austrian Lloyd's, was t start the next morning, via Trieste, for Patra s, in Gre. ce. He determined to go on ty this alone, feeling that the companionstdp of the Lanes, however delightful, was embarrassieg, and threatened to interfere

with the succes of his mission. That night he wire! to the commander of the despatch-boat, which was walting at Briudisl, and begged him to reply to Tri-14th, stating whether he could most him at Patras. If the answer was in the negative. Freziro menut, on arrival at Pitras, to work his way to Athens, and thence, by the Liraus, to Besika tay.

He was up with the lark, and on board, auxiously counting the moments till departure, when a woman's voice halied the Archduke Albert, as the Austrian steamer was called. Treziro looked over the bul-wark, and saw Mrs, and Miss Lane in a gonolela, with all their bazzage along-ile. "Oh, Mr. Trezire!" said Mrs. Lane, re-

proachfully, "to think of your giving us the

Nor even taen would she have known had it not occurred to her to ask when they were due at Brindlei, and whether they were likely to overtake the P. & O. mail.

"We are not going to Brindist at ail," said Trez.re. "I thought, of course, you knew that when you came on board." "I left it all to you, never supposing for a

A telegraphic message was brought on board directly the steamer got into the barbor. Trezire managed to receive it without being observed. He read it privately, and for an hour or two sail nothing more to the Lanes. He went on abore, in fact, and kept out of their way, returning, just before the steamer again started, with an open tele-

"It is all right, I'm happy to say; though you will have to go on to Patras, as originally intended."

Mrs. Lane's face fell, "But there we shall find a government

remarked Mrs. Lane, with astonlahment. "You can control the movements of men-of-war, and even the British consuls are at your beck and cail." Tho rest of the voyage was made by Trezire uuder verv pleasant conditions. He

was still a little anxious about his charge, but he now had the terrible portmantean, as well as the dressing-bag, in his own private cabln, and could see that they were not interfered with, and, besides, he was at last the acknowledged and accepted sultor of Millicent Lane.

The British admiral, when the despatchbont reached the fleet with its precious freight, was so delighted that he was ready to do anything to please Trezira. A mauof-war was just starting for Alexandria, and he williugly gave him and his friends a passage on board. For Trezire was now bound to Egypt, too. Telegraphic instructions had met him, entrusting him with a fresh mission, which he also carried triumphantly through. Indeed, from this time his progress was rapil. He is now a colonel, a C. Grant and His Staff.

[W. A. Croffnt's Letter.] To my inquiry about the labors of Grant's

statt, Gen. Horace Porter said: "Grant never dictated his onlers; he al ways wrote them with his own hand in a manifold book he had. When one of the staff would say, 'Let me write that out, general,' he would decline, saying: "No: this order may involve the lives of thousands of men, and if there is any mistake made on account of the wording of it I must bear the responsibility.' Ilis powers of concentration were very great. He could write just as readtly and clearly with a room full of people talking, laughing, joking an i telling stories as if he were alone In fact a racket seemed to stimulate him to better efforts. No noise could distract him or turn him from his subject. His mind seeme i, like Napoleon's, to be constructed on the principle of that patent bureau, of which, if one drawer was opened, the others were always of sed."

Inquiring again what the staff found to do if Grant did so much of the work blmself Gen. Porter replied:

es-we had plenty to do, I assure you. There were twelve of us, and we were given great discretion with regard to emergencles when we could not consult him. As a rule each of us carried his orders to a cortain part of the field, and he tried to make us so thoroughly familiar with his plane and purposes that he could trust us to carry them out. For instance, if an emergency occurred in any part of the line requiring instant action, and he could not be consulted in thue, we were authorized to Issue orders to division and corps commanders and eign his name to them. He never went back on us, either Sometimes he superseded or modified our orders, but I nover heard of his blaming any member of Lis staff for using unwisely the authority with which he had clothed us. You see come such arrangement was necessary, for our line of battle was thirty miles long. Each of us had ten or twelve orderlles, and, of course, we sent back building to Grantas ofton as possible. He was a man of great ingenuity and resources. He adapted his methods to American warfare. The notion that Grant was a crude and clumsy fighter, or, as his onemiles called him, a Hammerer ucceeding not by finesse but by brutai pounding on one spot, is n false one. It probably originated in the fact that his qualities generally shone more britliantly in the presence of the enemy."

> Why the the Cavairy Can't Catch. [Cincago Herald.]

A sergeant of cavalry on active service in Arizona against the indians tries to answer the liquiry, "Why don't the United States troops catch the raiding Apaches! Il) says the Indians have from five to saven good saddle bor os each. The soldlers are compelled to follow with one horse each, loaded down with blanket, overcoat, two canteens, lariat, picket-pin, the lines, nosebag, currycomb and brush, sometimes four to slx day's rations, a pannikin, the cup and numerous other little traps that are of no

use, but aiways in the way. Then comes the gun and field belt, with fifty rounds of cartridges, with 100 more in the saddle | cekets, then the pistol and belt, with twenty-four pistol cartridges. "Weigh a man with all this," says the sergoint, "and then turn blin loo-s after nu Indian pony, with a shell of a saddie, a gun and No suspicion of the roundabout route she immunition, and an almost nude buck, and say nothing of the buck's remounts and perflet knowledge of the country.

A Movable Hotel Mirror. [New York Letter,]

I observed that, in the parler of a notel, a full-length mirror did not rest flat against the wall, but was set out about an Inch at one side. Bits of wood behind that edge proved that the position of the glass was intentional, and I asked for an explanation. "That was done in order to get more wear

out of the carpet," was the reply. "Nineteen wimen in twenty can not resist the temptation of getting a fullsized reflection of themselves; and that ls especially true in a summer hotel. where the guests' rooms are not furnished with large mirror. As they walk through this parior, they are pretty sure to so nrrange their route as to face their shadows In the glass at least a part of the way. That practice is enough in one season to wear a path in the carpet. So, at the begluning of each summer, we shift the mirror siightly, and by that device lay out a new pathway nero's the carpet, thereby can be made to last years longer.
